- Germination with 4 & 7 day counts, Vigour & Blackleg

### **ULTIMATE CEREAL PACKAGE** (UCP1) \$180.00

- Complete Cereal Package, Unofficial Grade, Protein, Moisture & Dockage

### **ULTIMATE PEA PACKAGE** (UPP1) \$190.00

- Complete Pulse Package, Unofficial Grade, Protein, Moisture & Dockage

## Surcharges

At Seed Solutions Seed Labs we don't believe in little add-ons that increase your costs. There are no surcharges for rush orders, cancelling an order, amended and additional reports, sending reports via phone, fax and email, and cleaning seed—within reason. We do reserve the right of an additional fee in extreme cases.

AND MANITOBA FOR FREE SHIPPING**

Seed Solutions Seed Labs is no ordinary seed lab. We adhere to the industry regulations and standards, always striving for excellence. This doesn't make us different, it only gives you the confidence to know your results are accurate. What makes us different is who we are. This business is run by Shanna and her husband, Phil, as well as their dedicated family and staff. Shanna and Phil partner with her parents to operate their grain farm. Being active farmers, as well as Shanna's extensive seed background, gives Seed Solutions Seed Labs a different perspective in seed testing. This background has led Seed Solutions Seed Labs to develop seed tests that better represent conditions in your field, therefore giving you better results. We understand your seed testing requirements and what is important to you because our agronomic needs are the same as yours.
